sites, say in Greenwood Estates and the area north of Dempster could also be included for additional parks, a six-park referendum, which would satisfy all but the snob element, could be worked out.

Understanding the pre pre-Understanding the premise that most of us are motivated by self-interest, giving each area a park-area on a referendum might pave the way for a successful referendum.

Obviously going for a park in only one area causes a great wall of resistance from outlying areas. Accepting this as fact the only alternative is selecting smaller areas (say, from 2 1/2 to 5 acres) and hoping the self-interest in each area will successfully push across such a referendum.

The mention of the Niles Citizens Committee brings to mind that the group has functioned quite successfully, despite the limited amount of publicity it has received. The Committee members were partly responsible for the success of this year's Niles Days. The Committee was the only active group which began fighting against the onslaught of multiple dwellings in Niles, long before school district 63 residents began to organize against the multiples. The group's first president is our new Mayor and his quick rise to the number one job in the village was directly a result of this presidency. And most recently the Committee was the group which distributed petitions for CTA service to all villagers. It has indeed served a worthwhile purpose in the village, and has proven itself to be a permanent and most important part of our community. A Citizens Committee, independent and free of any ties, political or otherwise, gives every citizen in the village a chance to put into motion any ideas he may have regarding the running of his village. Since the 20-year reign of political power has been wrested from the hands of the old regime, it is much more evident that the village of Niles can be run by all of us, and that our village officials are merely our representatives and servants. We put them in...and we can just as easily kick them out...anytime we desire too.

If more of us will "get into the swim" by becoming active in such citizens committees Niles will get the public transportation and the parks which it so desperately needs.

Notre Dame Squeaks By Chicago's Taft 14 To 13

by Dan Lewis

"This is the first opening game we've ever won," stated Coach Joe Yonto.

"This is even more of an accomplishment when you realize that eight of our starting 11 offensive players are juniors."

During parctice the last 3 weeks, Coach Yonto drilled the boys on the extra point which proved to a factor in victory over Taft.

In the first quarter the Dons drew blood on a 15 yard run by the fullback Alan Loboy, but Taft retaliated with a 57 yard run by Chuck Wolavka. At the end of the quarter the score was the Dons 7, and the Eagles 6.

In the early part of the second quarter, Taft scored their second and final touchdown on a 1 yard run by Jim Graowski, but they failed to score their extra point. Notre Dame was left scoreless in the second quarter.

After the half time show by the famous marching band of Notre Dame, the Dons scored another touchdown by the junior halfback Greg Schilling. The Dons converted the extra point and the score remained 14-13.

Schedule Jefferson School Open House September 25

On Monday evening, September 25th, the Jefferson School, Dist. 64, will hold their annual "Open House".

All parents are cordially invited to join the faculty and P.T.A. in getting acquainted with their childrens' school.

Parents are asked to meet in the school auditorium at 8:00 P.M. at which time Mr. Richard Bretwisch, 604 Austin, P.T.A. President will open the meeting. "The Principal Speaks" will be an address by Mr. Richard Framke, Principal. Mr. John Larounis, 8101 Merrill will inform parents of the P.T.A. program plans for the coming school year. The parents will then be invited to their childrens' classrooms, and after their visit, refreshments will be served in the activities room under the direction of Mrs. Anne Dean, 8193 Greenwood, Social Chairman.

The Jefferson School, Dist. 64, P.T.A. will hold their annual Bake Sale at the Jewel Tea Store, 8060 W. Oakton, on September 29th starting at 9:00 A.M.

The mothers of the school will contribute their favorite homemake bakery goods, pies, cakes, cookies, etc.

The Bake Sale is a Ways and Means project and is under the supervision of Mr. Dan Tracy, Ways and Means Chairman.

The Bake Sale in the past years, has been a tremendous success, and we urge all to come early to assure the purchase of these delicious and tempting goods.

Enjoy the new FAMILY HOBBY Free!

CONN ORGAN

When there's a Conn organ in your home, the biggest problem is who gets to play next! It's so easy to play, so delightful to hear. So wonderful to own, and everybody wants to sit down and get into the act!

Why not have a beautiful Conn organ in your home and teach your kids to play, right here. And you can count this as a bonus. Lessons by the finest staff, taught without tears! Call or drop in.

NILES Periscope

PARKS

Village and park boards to meet Saturday morning at P.W. Building to air what can be done to give Niles much - needed parks.

TRANSPORTATION

Petitions requesting CTA service can be found at most local stores...also at village hall....rough estimate of 10,000 signatures already have been scrolled....United Motor Coach says additional Milwaukee Ave. service from Devon to Golf Mill is likely.

FLOODS

Look for ordinance to be rigidly enforced for disconnecting downspouts...dredging river is another job which will aid overburdened sewers.

SEWERS

Niles and Park Ridge officials meet September 27 to discuss Dempster Street sewer.....million dollar project would cost Niles 80% of total.

PUBLIC FORUM

Tonight at Oak School.....8 P.M.....village and park officials will be present to answer all questions of villagers.....expect a few Nilesites to bring up the subject of water...water.. water.

PINBALLS

Mayor Blase says some action will be taken regarding recent invasion of baseball and bowling games in town.....decision must be made quickly as to whether or not they're pinballs, contends Blase....Also, letter to court by village stating their action regarding recent ban of pinballs has never been requested....Blase believes action questioning legality of ordinance may have been dropped.

VILLAGE MANAGER

Appropriation allows for VM last six months of fiscal year...which begins November 1.....some covert resistance to such action despite outward signs of desiring VM.

NEW FIREHOUSE

Broke ground Sunday....expect construction to take at least four months.

NEW WATER RESERVOIR

Will occupy about 2 acres of property vacated by Hawkins Trailer Camp.....still leaves additional three acres which could be used for.....

NEW VILLAGE HALL

Cramped quarters at village clerk's office has trustees buzzing about enlarging facilities. One idea is to build second-floor addition above present firehouse....it would be used for new chamber.....other thought is that remaining three acres alongside at Hawkins might be used for new hall.

Zoning Board Meets Tonite 8 P.M.

'Water, Water, Water!' Is Subject at Tonite's Forum

Break Ground For New Firehouse

Groundbreaking ceremonies for Niles new Fire Station at Dempster and Cumberland took place Sunday afternoon. The following officials took part in the ceremonies. From L. to R. Adolph Foss, Police Chief Clarence Emrikson, Mayor Nick Blase, Trustee Sam Bruno, Trustee Robert Wente, Trustee John Poeschl, Chief George Pasek, Trustee Ken Scheel, Harry Kinowski, Fred Hart, Capt. Albert Hoelbl, M.B. Meyer, Trustee Len Szymanski, Ass't. Chief Edward Bacher and Trustee John Stanley.
(Other pictures and stories on Page 8)

Will Try To Solve Flood Problems

Niles second public forum, to be held tonight at 8 p.m. at Oak School, will likely be attended by many disgruntled Nilesites, who seek to find a solution to water problems which have played havoc with basements, backyards and streets throughout the village.

The forum is the second open meeting attended by village and park officials, who are queried by local residents interested in solving their problems.

The record September rains, which wreaked great damage in Niles the past three weeks, will have top priority in the discussions.

Mayor Blase's home territory, the Greenwood Estates area, was among the most heavily flooded areas the past week. Even the Mayor's home had water in the downstairs recreation room.

THE BUGLE asked Public Works Superintendent Ed Bacher what major solution could alleviate Niles water problems. Bacher's answer was the building of storm sewers under Oakton Street and Dempster Street would be the major aids to this problem. The Oakton sewer is unlikely to be built for the next three years. Mayor Blase announced last week that Oakton Street will be widened to a four lane road "within three years." It is expected at the time of road construction the county will build the sewers for the area.

In the case of Dempster Street it was announced at Tuesday night's meeting that another public hearing would be held before any construction of a sewer could take place. The anticipated million dollar sewer will serve part of Park Ridge as well as Niles. Since Niles will be using about 80% of the sewers, Niles will pay about 80% of the cost since this percentage is the likely proportion of the usage of this sewer. There are certain dissident groups in the northern area.

Public Forum Oak School 8 P.M.

You've Read This Before "Out Go The Pinballs"

Wednesday, Niles police began informing all businesses with "amusement machines" that they would have to be removed from their premises within the next four or five days. Police Chief Whitey Emrikson told THE BUGLE the machines are being removed to comply with Niles recently passed no-pinball ordinance.

The latest machines, which had a short life in Niles of about two weeks, invaded several businesses, after the removal of the old pinball machines, which had been the result of the passage of the ordinance. While the latest machines were primarily baseball and bowling games, they were different from the more lucrative changing odds machines, which in many cases has been used for gambling in Niles. The question whether these machines could also be used for gambling were never answered though the games had a counter which could be used for "free" games. This counter could easily be used for a pay-off. Many observers believed the machines were placed in Niles to test the recent ordinance. It was assumed that if these latest machines could be left in the village then it would invalidate the no-pinball ban.

In Tuesday night's abbreviated meeting Mayor Blase announced a Niles pension board would be set up and that the five man board would include "two civilians, two policemen and a fifth person."

In other actions Blase said the response to the CTA petitions has been overwhelming and that they were being held up from presentation until after next week.

....Blase lashed out at an "audacious" letter from the

Sponsor Fire Prevention Contest

Clang! Clang! Clang! There goes another fire engine! Will it be a house on fire, a child badly burned or a false alarm? The Niles Public School P.T.A. is again sponsoring the Fire Prevention Poster Contest in conjunction with Fire Prevention Week. This poster contest is open to children in grades 1 thru 8.

This year a first and second place prize will be given in each grade. The first prize winners will receive free ice cream for 2 weeks and the second place winners will receive 1 week of free ice cream. All entries should be submitted by Oct. 5. The Niles P.T.A. is very interested in Fire Prevention and we join Smokey Bear in saying "Don't Give Fire A Place To Start".

Niles Parks

Dear Mr. Besser:

Your recent editorial on the acquisition of parks was good - up to the last paragraph. In it you intimate that juvenile delinquency will run rampant in Niles if parks are not provided for the young. Actually, anyone connected with the problem, can point out that most juvenile problems result from conditions in the home rather than such things as the lack of parks. IF having many parks is the answer to the juvenile problem why does the Douglas Park area in the west side of Chicago have the highest percentage of juvenile delinquency in Cook County? The area is loaded with parks, better equipped than Niles can ever hope to be, but they're jungles. No one uses them. Answer—poor home conditions.

Also, you'll have to admit that a park west of Milwaukee Avenue would be opposed by people east and vice-versa. Why? Have you ever tried crossing Milwaukee Avenue on foot? I bet you haven't. Imagine a street cutting thru the heart of a city of over 20,000 people without a stoplight for over three miles! With a speed limit of 45 m.p.h. Correct this condition — then come to the people and they'll be glad to vote for parks. At present time its a sure bet any proposals will be beaten. Why pay for something we can't use.

Best Wishes,
W.J. Severin
2206 Glenview Rd.

Phonin' The Editor

The following are three telephone "letters to the editor" we received the past week. Non-letter writers can phone TA3-7845.

Sales Tax Gyp

Mr. Editor:

I've been buying milk in one store in Niles for sometime. I've noticed in charging for a gallon they always charge for the deposit on the bottle and THEN charge sales tax on the entire total. Is there anything which can be done about this practice? I've received no satisfaction from the local employees when I complained about this.

Ed. Answer: Send in letter to editor column and we'll forward complaints to company's home base. All businesses need their customers. This type of retailing results in a loss of customers. The home office would be grateful for calling their attention to a local practice which we're sure is not part of company policy.

* * * *

Lower Speeds

Mr. Editor:

What can be done about lowering speed limits on Golf Road, west of Milwaukee Avenue in unincorporated area? These excessive speeds will result in a

"This Is Mr. Dagne's Life"

The large turnout of parents and teachers attending the first meeting of the Oak School PTA last Monday, September 18, 1961, enjoyed the surprise pulled on their Principal Mr. Frank A. Dagne, by President of the PTA, Lew Molter and Mrs. Roy O. Makela, 8051 Octavia, as they produced pictures and told of his life in a "This is Your Life" skit.

The remainder of the program was as scheduled, Mr. Dagne introduced the teachers of Oak School to the parents. The use of film strips was demonstrated and movies of the Fun Fair were shown. The evening ended in good humor as refreshments were served by the PTA board members.

Tells Cost For Third Maine High School

A nominal increase of $1.75 per $1000 of assessed value of real property in Maine township will support the cost of constructing of the new Maine South high school, Dr. Earle W. Wiltse, district 207 superintendent, told PTA representatives in open meeting last Thursday.

"Three high schools will cost more to support than two therefore the board of education must ask for a 2½ cent increase in the educational fund on the November bond issue ballot," said Dr. Wiltse.

The two statements summarize the cost picture for the individual taxpayer in Maine township, who will be asked to vote on the $8.8 million building program proposed by the board.

"Months of work by a committee of 165 educators and laymen who have studied the township's educational needs from every conceivable angle have resulted in this 4 1/2 pound report," declared Walter Craigie, board member who gaveled the meeting, showing a 365-page manuscript of the township high school survey.

"I believe in this report and support every item in it," Craigie declared.

Mrs. W.W. Kuehl, 700 S. Prospect, Park Ridge, told the gathering of plans to alert voters to the merits of the building program. She spoke as a board member and the board's appointee heading a campaign to get out the vote for the new high school and the Maine West fieldhouse.

Both a telephone campaign to urge voters to go to the polls and a poll watching schedule will be administered by volunteers among PTA officials of the township, Mrs. Kuehl said.

District 63Window Breaking Can Result In $500 Fine

Over the week end of August 26, 1961, several minor boys confessed to breaking windows at the Emma S. Melzer School. Damage to the windows in the school has been determined to be approximately $1850.00.

Careful investigation by the Morton Grove Police Department resulted in confessions from the minors involved. Officer James Coursey, under the direction of Chief Scanlan, spent many days questioning children in the neighborhood and finally narrowed the suspects down to the local boys. The police officers determined that the windows had been broken with a pellet gun or air rifles and were able to substantiate this from the confessions of the boys. Fred W. Wetendorf, Building and Grounds Superintendent for School District No. 63, worked closely with the police department in apprehending the boys responsible. "I wish to thank Chief Scanlan and Officer Coursey for their fine work in this case," said Mr. Wetendorf. "These men worked long hours in sifting the various facts in the case and through their efforts the case has been solved."

This incident which involves defacing and damage to a public building should serve as a warning to parents and to children. The State Law provides that whoever willfully and maliciously or wantonly and without cause destroys, defaces, mars or injures any schoolhouse, church or other building erected or used for the purpose of education, or religious instruction, or for the general diffusion of knowledge, or any of the outbuildings, fences, walls, or appurtenances of such school-house, church or other building, or any furniture apparatus or other property belonging to or connected with such school-house, church, or other building, shall be fined not exceeding $500.00, or confined in the county jail not exceeding one year.

Welcome Karen Glowacki!

Mr. and Mrs. Stanley J. Glowacki are proud to announce the birth of their new baby, Karen Ann, 8 lbs. 6 oz. who was born on September 7, 1961.

3 Nilesite's Semifinalists For Merit Scholarships

Fourteen seniors at Maine township high school, East have been named semifinalists in the National Merit Scholarship competition for 1961, Principal Milo S. Johnston announced late Wednesday.

Ten of the seniors live in Park Ridge, three in Niles and one in Glenview. All qualified in tests given last March to juniors in 15,000 high schools in the United States.

To complete the sequence that entitles them to receive college merit scholarships they must pass the scholastic aptitude test of the College Entrance board, which they will take December 2, and have their scores substantiated and be endorsed by their high school principal.

About 97 per cent of the semifinalist group become finalists and qualify for merit scholarships, according to the National Merit Scholarship foundation.

Maine East seniors named as semifinalists in Niles are Joseph A. Calkowski, 8057 Prospect; Dwight R. Frindt, 8810 Grace; and Jack A. Wiesenthal, 8100 Elmore.

Plan Skokie Valley United Crusade Wind-Up

Volunteers of the Skokie Valley United Crusade will rally at Devonshire Center in Skokie at five report meetings that will close in mid-October the 10th annual Red Feather fund campaign by the Community Chest of Golf, Lincolnwood, Morton Grove, Niles and Skokie.

General Chairman Bernard L. Marsh will be leadoff man at the 7:30 p.m. breakfast meetings on September 28, October 2,4,9 and 12. Backing him will be William J. McAuliffe Jr., co-chairman of the five-town drive, and Norman N. Schack, Community Chest president.

Accumulative reports from some 3,000 volunteers will be received by the auditing division of which Alfred J. Escher is chairman and Miss Sonia Bartkus is co-chairman.

"Reporting progress of the five divisions at each meeting, we expect to reach our $130,000 goal on October 12," Marsh said, "Early reports from volunteers, particularly the industrial division show the drive well ahead of former years. I am confident our Red Feather agencies will receive the support they need and merit."

Leaders of the fund-raising divisions are Alfred J. Haut and Leroy Plaziak, residential; Daniel C. Searle, business and industry; Arthur C. Colver, civic and education; Joseph Rester, advance gifts; and Dr. Clyde Parker, clubs and organizations.

Postal Jobs Now Open

Two unsalaried postal positions are available immediately within the Chicago Postal System.

It was announced today that Civil Service Examinations are now being scheduled to fill the many openings made available by retirements, promotions, and an increasing volume of mail.

The openings available to male applicants only will be filled from the Civil Service availability list of qualified persons who have successfully completed the necessary examinations.

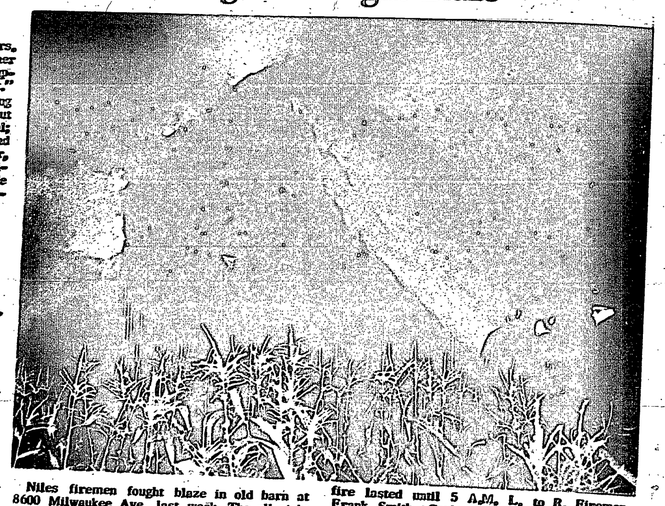
The starting salary for Substitute Employees is $2.16 per hour with an additional 10¢ for services performed between 6 PM and 6 AM.

A five day work week, as many as 5 weeks vacation, 13 day sick leave allowance each year, merit promotions, 8 paid holidays each year, annual automatic salary increases, liberal retirement plan, hospitalization and low cost life insurance are only a few of the advantages of a career in the postal service today.

All male applicants who have reached their 18th Birthday and desire to take advantage of these excellent opportunities should apply in person or by mail for examination applications.

Write or call in person contacting the Board of Civil Service Examiners, Room 312, Main Post Office Building, 433 West Van Buren Street, in postal zone 7.

Fight All-Night Blaze



Niles firemen fought blaze in old barn at 8600 Milwaukee Ave. last week. The all-night fire lasted until 5 A.M. L. to R. Firemen Frank Smith, Carl Fox and Charles Bobula. (Photo by Howard Krick)

Review Jerome Debish's Recent Scout Activities

Jerome E. Debish, 8301 Oconto, Niles served as assistant deputy camp chief at Wood Badge Training Course for Adult Boy Scout Leaders at Region 7 Canoe Base, White Sand Lake, Boulder Junction, Wis. last July.

During the eight days course, Jerry acted as quartermaster and assistant scoutmaster for a troop of 42 scouters (volunteer and professional) from this region. The course teaches skills from tenderfoot through first class as well as methods of teaching others these skills.

Most interesting was the building of towers, bridges and tramways. An overnight was taken with full packs weighing 37 1/2 pounds which contained clothing, food, tent and cooking equipment. Map and compass were used on the hike.

Jerry took this same training in 1959. Currently he serves scouting as assistant district commissioner, member at large on the district committee, council training staff and member of committee of Troop 45, sponsored by the Oak P.T.A., Niles. He has been scoutmaster of the troop and assistant cubmaster of Pack 3983 in Chicago. In 1960 he was a member of the national arena shows at the Jamboree at Colorado Springs.

Son Michael, 16, is a sophomore at Notre Dame High School and a member of Post 45 in Niles. He attended the Jamboree with his dad. The late Mildred Debish was a den mother and a most faithful supporter of scouting.

Chatter Matter

by Dorothy Schreiner
YO 7-9887

Congratulations to Mr. & Mrs. JOSEPH MAGLUILO, 8219 Osceola, on their 25th wedding anniversary, which they will celebrate on Sept. 26.

Mr. & Mrs. PETER HOH, 8146 Ozanam will be married 27 years on Sept. 29. Our best wishes to both of you.

Sympathies are sent to Mrs. JOSEPH SCHNIRER, due to the recent death of her mother. Funeral services were held in Valparaiso, Ind.

Sympathies are extended to Mr. AL GRUENEWALD, whose mother died on Sept. 18, in St. Louis, Missouri.

Birthday greeting and lots of presents to two of the younger set in Niles. Master BOBBY DELORENZO will be 2 years old on Oct. 2. Baby ANNETTE MARIE BIELSKI will be a year old on Oct. 4.

Mr. EUGENE BRIARS, 8239 Osceola found a man's or boy's wrist watch in the front of his home on Friday, Sept. 15. It will returned to the owner, upon proper identification. If you think it might be yours, please call GENE at YO 7-8858.

The Sept. 18 meeting of the Oak School P.T.A., was a very well attended meeting and proved to be quite a surprise to the school principal, Mr. Frank Dagne. After the business part of the meeting was finished, all the teachers were introduced to the parents. Then a "This Is Your Life" skit was presented and the topic was Mr. Dagne. With co-operation from his wife, his baby pictures and other things pertaining to his Life were shown or introduced to the audience. Mr. DAGNE took it all good naturedly. At the end of the skit, it was announced that although the committee wanted to present him with a Bell Howell Camera, his wife said he already had one and would have no use for another. Instead he was given a pair of over-sized glasses—"to see the children better" and an oversized-comb —"to keep the kids out of his hair".

The Mother Cabrini Circle of St. John Brebeuf will hold their annual Rummage Sale on Friday, Oct. 6 from 6:00 p.m. to 9:00 p.m. and Saturday Oct. 7 from 9:00 a.m. to noon. A special request has been made by the co-chairman, Mrs. Charles Schanze and Mrs. William Malloly—"Since this will be held during the week of the Men's Mission at St. John's, please load your husband down with your Rummage Donation, and on his way to church, he can drop it off at the school hall on either Wed. or Thurs. evening from 6:00 to 7:45 p.m. Also, for Friday night shoppers, "Please park on the North Side Parking Lot Only".

Due to the Men's Mission at St. John Brebeuf Church, which will be held from Sunday Oct. 1 through Saturday Oct. 7, the St. John Brebeuf Catholic Women's Club meeting night has been changed to Oct. 10. The program for the evening will be the annual "Sisters Pantry Shower." During the week, food suggestions will be given to the children in the different rooms at St. John's and they will also be notified on what day to bring their donation. Then on the evening of the Oct. 10 meeting, all the members of the club are asked to bring a cash gift, so that the Sisters may purchase the additional food they will still need. Even though our Sisters look tiny and fra-

Prepare For Fire Prevention Contest

Niles Public School art class is preparing posters for this year's Fire Prevention contest. Last year the school won a plaque for all-year-round fire prevention and was judged the outstanding school in Niles for this program. Details of this year's contest can be found on Page 1. Seated (l. to R.) Wiley Kaywood, Gale Blasek, Judy Anderson, Carol Cenci, Dorothy Schultz, Ellen Fink. Mrs. Ellen Martin (Art Teacher), Mr. George Murphy (Principal).

Thespians To Entertain Niles Public School PTA

The next regular meeting of the Niles Public School P.T.A. will be held on Tuesday evening Oct. 3, at 8:00 P.M. in the All Purpose Room.

A short business meeting will be followed by a very interesting program. The Thespian Players of the Woman's Club of Niles will present a comedy entitled "Husbands are Human". A sewing circle with a prospective bride is questioned by a magazine canvasser taking a survey. The question is "What Do You Dislike Most About Your Husband?" After the first initial shock—th e fun begins. Plan to attend this meeting and see for yourself that "Husbands Are Human".

The 7th grade mothers will serve the refreshments and the Room Mothers are: Mrs. W. Wielgus, Mrs. F. Breinig, Mrs. R. Hill, Mrs. G. Horvat, Mrs. A. Martorano, Mrs. J. Lisafield, and Mrs. W. Brunner.

Watch for news about our Roast Beef Dinner, Sunday, Oct. 15, 1961.

St. Luke's News

World Wide Communion will be observed at St. Luke's United Church of Christ, 9233 Shermer Road at Harlem, Sunday, at 9:30 and 11:00 A.M. The Lord's Supper will be served and new members will be received. The Senior Hi Fellowship will meet at 7:00 P.M.

St. Luke's Women's Guild will meet at the church on Tuesday, October 3, at 8:15 P.M. The Reverends Charles T. Leber and Ulysses B. Blakely will speak on integration.

St. Luke's Women's Guild has elected the following officers for the new year: Mrs. Thomas Linquist, president; Mrs. Kenyon Levenson, vice-president; Mrs. Robert Wershing, second vice-president; Mrs. Ivan Hennings, treasurer; Mrs. Ralph Strum, recording secretary; and Mrs. Robert Metler, corresponding secretary.

Youth Fellowship elected officers as follows: Junior Hi—Patricia Manning, president; Peter Zorn, vice-president; Terry Bryant, secretary; Nicki Sieveke, treasurer. Senior Hi—Cheryl Thomas, president; Arla Vandervalk, vice-president; Cheryl Robbins, secretary; Roger Thomas, treasurer.

KC Dance This Saturday

The North American Council No. 4338 of the Knights of Columbus in Niles will hold their fifth annual dance on Sept. 30 th in the Morton Grove American Legion Post Hall at 6140 Dempster St.

Dance committee chairman Tom Christian and his assistants have worked hard to provide an evening o f fun and entertainment.

Dancing will start at 8:30 p.m. to the music of Bob Sutter and his Troubadors and continue until 12:30 a.m. This dance is open to friends and patrons of the Niles Knights of Columbus.

Newborn

A baby girl, Rosanne Marie, was born to Mr. & Mrs. E. F., Polcyn of 8056 N. Overhill on September 15th, Little Rosanne weighed 7 lbs. 5 1/2 oz.

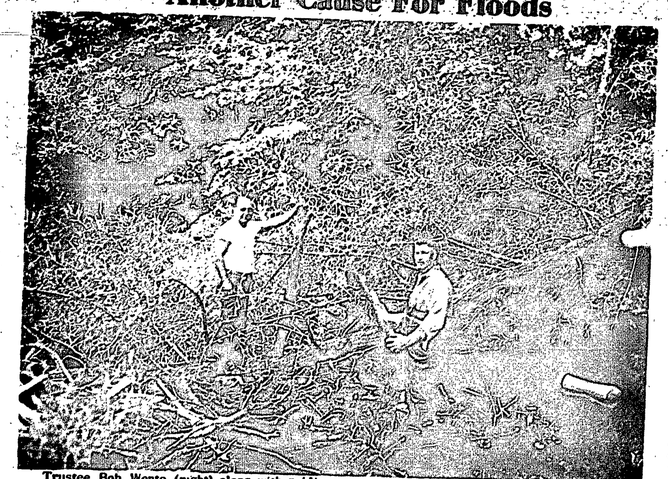
Another Cause For Floods



Trustee Bob Wente (right) along with public works member emphasize some of the debris which has been thrown in the north branch of the Chicago river at Touhy Avenue. Wente contends a cleaning of the river will greatly aid Niles' flood conditions which were so evident during the recent rains.

A baby girl, Sally Ann, born on September 16, 1961, to Mr. and Mrs. Frank J. Stankowicz of 7065 Frank Ave, Niles. She weighed 7 lbs 13 1/2 oz.

A girl, Susan Marie, born on September 16, 1961 to Mr. and Mrs. Mitchell J. Kolcz, of 8340 N. Harlem Ave, Niles. She weighed in at 6 lbs. 1/2 oz.

A new baby girl, Pamela Helen, born on September 19, 1961, born to Mr. and Mrs. Gordon Michalsen, of 8327 Waukegan Road in Niles. She weighed 6 lbs. 8 oz.

Award Candystripers

Nineteen service pins and two special certificates of merit were awarded to Candystripers of the Service League at Lutheran General Hospital, 1775 Dempster Street, Park Ridge, a luncheon was held in their honor Wednesday in the School of Nursing building adjacent to the hospital. An additional ten pins are to be awarded to girls who were unable to be present.

"Candystripers" is the name given to the girls' and boys' division of the Service League and is a description of the girls' uniforms which are pink and white striped.

Mothers of the Candystripers were also luncheon guests.

Notre Dame Wins 27 To 0

by Dan Lewis

Despite the rainy weather last Saturday afternoon the Green and White Dons of Notre Dame trounced St. Francis of Wheaton at Wheaton by the score 27 to 0.

During the process of the first quarter both teams failed to score.

At the beginning of the second quarter Notre Dame's junior 200 pound tackle Dan Kramarczyk made a touchback worth 2 points. Greg Schilling a junior for Notre Dame ran for a touchdown, but they failed to make the conversion. Notre Dame's quarterback Dick Gerzynski passed to Mike O'Conner who also ran for a touchdown. Again Notre Dame failed to make the conversion and the score remained Notre Dame 14 and St. Francis 0 at the end of the second quarter.

In the third quarter as in the second quarter it was Notre Dame all the way. Fullback Alan Loboy a Don senior ran 2 yards for a touchdown. The Green and White Dons of Notre Dame made their extra point on a pass from Gerzynski to Lambert. Again junior Dick Gerzynski completed another pass to Mike O'Conner who ran for the touchdown. Notre Dame failed to score the extra point.

The Dons failed to score in the final quarter but Notre Dame's defense kept St. Francis from scoring.

Notre Dame's sophomore squad has beat both of their opponents Taft and St. Francis by the score 7 to 0. Jim Powers a quarterback and Basil DeStefano a halfback both who graduated from St. John Brebuef in 1960 contributed to the victories.

Next Friday evening September 29, Notre Dame plays St. Bede at Notre Dame stadium. Last year the Dons lost to St. Bede but this year with fine school spirit they hope to win.

Credit Union Pays Dividend

The Maine Township Schools Credit Union paid a 4 1/2% dividend in May 1961. This was one percent higher than was paid in May 1960.

The Credit Union was originated in April 1959 to assist school employees in Maine Township to save money, borrow easily, and draw dividends on their savings. The Credit Union now has 140 members, both borrowers and savers.

Court Room Briefs

Criminal matters heard Tuesday, September 19, 1961, by Judge Anton A. Smigiel in the Magistrate's Court of Niles. The State of Illinois was represented by Robert F. Zadek of the State's Attorney's Office.

1. The People of the State of Illinois vs. Richard Zack
Charge: Disorderly Conduct, Contributing to the delinquency of a minor.
Arresting Officers: J. Femmel, J. Kraus and F. Wichlac.
Finding: Guilty—Disorderly Conduct—Fine $100.00, Nolle Pros.—Contributing to delinquency charge.

2. The People of the State of Illinois vs Elvin Johnson
Charge: Disorderly Conduct
Arresting Officer: F. Topp
Finding: Guilty—Fine $25.00.

3. The People of the State of Illinois vs. Norman Harris
Charge: Larceny
Arresting Officer: J. Femmel
Finding: Guilty—30 days County Jail.

4. The People of the State of Illinois vs. William Upton
Charge: Fictitious Plates on Car
Arresting Officer: Sgt. Kozak
Finding: Guilty—Fine $200.

5. The People of the State of Illinois vs. Robert S. Weir
Charges: Reckless Driving, Disorderly Conduct, No Operator's License
Arresting Officers: A. Golbach, J. Christie, A. Baltzersen.
Finding: Reckless Driving—Dismissed, Disorderly Conduct—Guilty—Fine $25.00, No Operator's License—Dismissed.

6. The People of the State of Illinois vs. George C. Haggeorge.
Charge: Check to Defraud
Arresting Officer: F. Stankowicz
Finding: Continued to 10-3-61 to make restitution.

7. The People of the State of Illinois vs. Bruce A. Borrini.
Charge: Larceny
Arresting Officer: F. Topp
Continued to 10-3-61 on motion of defense.

8. The People of the State of Illinois vs. Dennis Disano
Charge: Larceny
Arresting Officer: F. Topp
Continued to 10-3-61 on motion of defense.

9. The People of the State of Illinois vs. Robert S. Fine
Charge: Accident—Art. III Sect. 6-301-2
Arresting Officer: A. Golbach
Finding: Guilty—6 months supervision. Father to withdraw license by affidavit.

10. The People of the State of Illinois vs. Gerald Posedel
Charges: Larceny of a Motor Vehicle, Larceny, Disobeyed Stop Sign, Speeding 100 MPH in 45 MPH Zone, Violation of Curfew, Reckless Driving, Violation of Driver's License Act.
Arresting Officers: F. Topp, Sgt. Dennis
Counsel for defendant entered an affidavit and order for Change of Venue to Court of Morton Grove in order to combine with charges pending in that Court.

Chatter Matter

gie, they are big eaters, so please be generous with your donation.

The Partners Club of St. John Lutheran Church, 7423 Milwaukee Ave., will have their 3rd annual pancake day on Saturday, Oct. 14, from 7:00 a.m. to 7:00 p.m. at the school gym. Donations are $1.00 for adults and 50¢ for kids under 12 and you may eat all the pancakes you want for your money. All profits will be used for the building fund.

Teletype Prepares For Fire Prevention

Teletype Corporation employees prepare displays for demonstrations during Niles Fire Prevention Week, L. to R. Bob Burrows, Dan Czlapka and Dick Camara.

Phonin' The Editor

Continued from Page 3

tragedy someday if something isn't done to lower them.

Ed, Answer: Here in Niles the Lions Club led a drive to lower limits on Milwaukee Avenue and Harlem Avenue. After petitioning the entire village, personally going to Springfield, having an audience with the Governor and our Representatives, the limits were lowered to 40 and 35 MPH on these two streets. Similar action on your part is the only answer we know.

Floods • • •

Mr. Editor:

"Come over to our area (Ballard and Greenwood) which is unincorporated and take pictures of the flooded conditions here. The water from Golf Mill and neighboring Niles areas results in these tremendous floods. What can be done?

Ed, Answer: Niles tried to annex your area some two years but the snob element there preferred to stay out of our plebian town. Your voice in Niles thus becomes weak in voicing such complaints. However, we suggest you go to Oak School tonight and voice your problem at the public forum there. Also, you should have a representative at the Park Ridge-Niles meeting September 27 when they discuss the Dempster Street sewer for that area.

Friday Is Rubbish Pick-Up Day

Rubbish defined as old furniture, hot water tanks, stoves, large branches, crates etc. is currently being picked up on Fridays of each week. Articles will only be picked up by special request by calling Niles 7-7555, before each Friday. Calls will not be accepted on Fridays. All articles have to be placed by the curb or in the alley by 8:00 A.M. Waste materials (such as concrete, dirt, clay, bricks, stone and lumber), are not included with the Friday pick-up, said materials have to be disposed of at the expense of occupants of said premises. Grass clippings are picked up with your regular weekly garbage pick-up and not picked up on Friday's.

Soundin' Off To The Editor

(Just like letters to the editor, and phone calls to the editor, personal complaints are often aired in conversation. The following complaint was spoken at last Thursday's Lions luncheon).

Sidewalks

"I know all about the corruption which has existed in the village in the past. But you must say one thing about the old officials. When you made a request they did do something about it. Here it is, the beginning of another school year, and there's still no sidewalk on Oakton Street between Washington Street and Greendale. Several hundred school children walk there every day and no walk has been placed there. Public Service Company owns about 75% of the property and they said they would pay their share for a walk, as long as there is a complete walk. Why don't the new trustees do something about this situation?

Thespian Players In Rehearsal

The Thespian Players, dramatic group of The Woman's Club of Niles are now rehearsing a new play for presentation at the organization's Membership Tea in September. The play entitled "Thursday at Home" is a one act comedy by May Howley Barry. The cast will be announced next month.

The dramatic group which was formed last winter presented its first play at the April meeting of the Woman's Club. The play, a one act comedy, Husbands are Human, made such a hit that the women have been invited to present it at the Niles Public school, the Oak Public School and for the Lions Club. Any organizations wishing information about future bookings may contact Mrs. Philip Bergeron, 6930 W. Keeney, NI 7-8090.

New Approach To Biology At Niles High

Ralph Harvey, Niles West biology teacher, recently returned from a briefing session at the University of Colorado where biology teachers from American high schools met to study and explore a new approach in teaching high school biology.

The briefing session was conducted by the American Institute of Biological Sciences through its Biological Sciences Curriculum Study.

The Curriculum Study was organized in 1959 to improve teaching biology at the secondary school level by the Institute which represents 85 thousand biologists.

The image of biology which most people harbor in their minds from their high school days is that of a great storehouse of facts dealing with anatomical structure and the identification of organisms.

Endeavoring to encourage creativity among the students of biology, the Curriculum Study first realized that dogma has no place in science and that dogma of facts as a positive goal is detrimental to an experimental attitude.

"If we teach only the well authenticated details and ignore the unknown, how can we inspire young people to become the research biologists we need," said Ralph Harvey.

Using more of the laboratory approach, the Curriculum Study has produced three basic biology texts. The three texts vary only in the theme of presentation.

One text was prepared for the biology teacher whose major interest is in physiology and bio-chemistry; another was for the teacher interested in development and genetics; and a third for the teacher whose main interests are in ecology and evolution.

Preliminary editions of the three texts were revised last summer. The revised editions will be used by some 350 biology teachers this school year and will be revised again, based on the experiences learned, before they are released generally for classroom use.

According to Ralph Harvey, improvement of high school biology is extremely important since a majority of senior high school students take only one science course, tenth grade biology, which enrolls eight out of every ten sophomores, or almost 2 million students each year.

A majority of these students do not go on to college, Harvey continued, thus, it is a school's last chance to prepare a majority of its students for the rapid changes in scientific knowledge and concepts they will face during their lifetimes.

Dr. Bentley Glass of John Hopkins University, chairman of the Curriculum Study, said, "The main objective to keep the mind in high school biology teaching is to teach the nature of science. To develop a civilization based upon a scientific foundation and to remain a democracy, the citizens of this country must learn what science really is. If we do not succeed in this, within a very brief period of years we will surely come to a crossroad which will lead man either to war or tyranny."

New Physics Curriculum At Niles High

Niles East high school, in cooperation with the University of Chicago, this September incorporated into its science program a physics course developed by the University's Physical Science Study Committee.

The new program, introduced at the Niles East and Maine East high schools on a limited scale two years ago for exploratory purposes, was developed by a group of outstanding physical scientists, university professors, and high school teachers from across the country.

Dr. Stuart Anderson, assistant superintendent in charge of curriculum at the Niles high schools, said, Niles East and Maine East high schools were invited to share in the cooperative research program because of their strong science and physics departments; their close proximity to the University; and their interest in improving the quality of science instruction.

The program provides additional teaching aids such as films showing outstanding physicists lecturing and demonstrating scientific projects; supplementary reading material; special laboratory equipment; and other specially prepared visual and audio materials.

A feature of the program is the team teaching approach where two classes are brought together as one so that the two teachers can collaborate in planning and carrying out the instructional program for their two sections grouped as one class.

The ultimate goal of the program is to give students a maximum of learning experiences through the use of appropriate electronic audio-visual materials.

A reputed advantage of such an arrangement is that responsibility for providing instruction for the resulting class of approximately 50 students can be shared and thus each teacher's special training and interests serve to complement those of the other.

Another is the increased opportunity for planning and preparation available to the teachers as a partial result of the time saved through reduced duplication and repetition of similar teaching activities.

Most important, however, two teachers working together, may better apply more flexible procedures in grouping students according to their needs for special assistance and instruction.

An alleged disadvantage of this new arrangement is the possibility that the individual student may feel "lost" in a class of 50 even though this organization does not increase, but maintains, the number of students per teacher in the program.

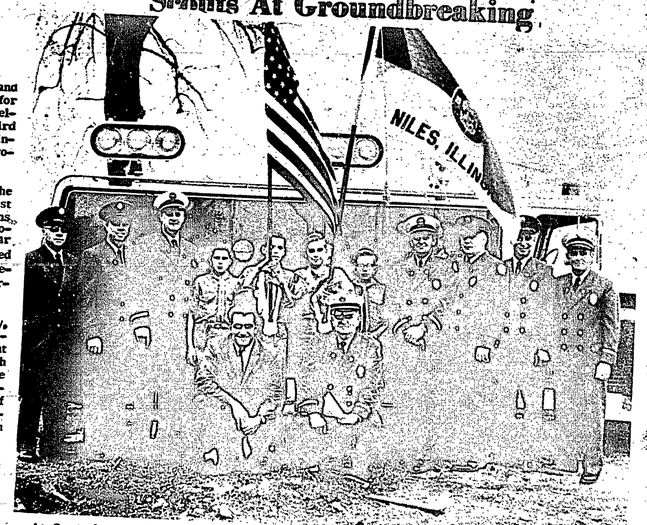
However, with the flexible grouping of students, the number of times a student will work closely with a teacher, individually or in small groups, is likely to increase, thus giving students an advantage of differentiated instruction.

Classes that are involved in this part of the physics program were selected at random in order that careful evaluation procedures may be used. The same two teachers will teach regularly organized classes in additional to their "class" of 50 students.

Whatever the outcomes of this program and wherever any given student may be located, all classes will benefit by the intensive preparation and planning conducted by the teachers during the past six months of concentrated activity.

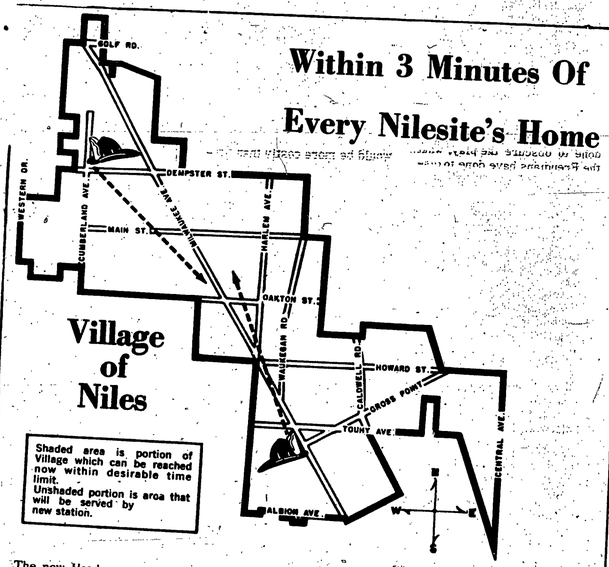
The program in physics is designed to give each student the best learning achievement of which he is capable.

Scouts At Groundbreaking



At Sunday's groundbreaking for the new fire station the following scouts joined Niles officials in the ceremonies. From L. to R: Front Mayor Nick Blase and Chief George Pasek, Back Row, L. to R. Charles Bobula, Adolph Foss, Lt. Robert Larson, Howard Payne, Phillip Eaton, Larry Tabert, Jerry Tabert, Capt. Albert Hoelbl, Harry Klnowski, Sam Bubley and Ass't. Chief Edward Bacher.

Within 3 Minutes Of Every Nilesite's Home



Village of Niles

Shaded area is portion of Village which can be reached now within desirable time limit.
Unshaded portion is area that will be served by new station.

The new Headquarters and Fire Station building will be situated on approximately two acres of land. It will consist of offices, apparatus quarters, living quarters and training facilities. The station itself, will cover 15,000 square feet and will house the following apparatus: snorkel, pumper, squad truck, ambulance and an inhalator car. Other features of the building will include a complete communications center and alarm rom, a hose drying tower and workshop. The alarm and communication systems will be the most modern equipment obtainable today.

Complete training facilities will be available for basic and advanced firemanship training.

The cost of the grounds, building and equipment will be the total of the bond issue. This referendum was passed by the overwhelming margin of 10 to 1, thanks to the citizens of Niles who recognized the need of additional and adequate fire protection.

Foreman High Class OF 1936 Re-Union

The January and June classes of Foreman High School, class of 1936, will hold a joint reunion at the Charlottes Fine Arts Club, Parkside and Chicago, Ill., on Saturday, October 28th. Dinner will be at 7 o'clock with time afterwards for dancing and reminiscing. For further information regarding reservations please contact Lorraine Scott Yochim, phone TE 4-1292.

Facts From The Stacks

by Jean Fox, Librarian

Every year produces at least one new book on Shakespeare, but a recent one prompts a new look on Hamlet. Hyam Plutzik has written a long narrative poem, HORATIO, that explores the meaning of Hamlet's story. When Hamlet is dying, he says to Horatio:

"Absent thee from felicity awhile,
And in this harsh world draw thy breath in pain,
To tell my story."

To Mr. Plutzik came the happy thought that he would like to inquire just how Horatio fulfilled his mission. In this long narrative, poem, he has explored, in all their philosophical turnings, the dilemmas, the paradoxes and the illuminations of our journey through space and time. In a wide variety of encounters, Horatio finds person after person who adds his own version to the distortions already obscuring the story of Hamlet. Finally, legend becomes real enough to make him doubt his own original experience, and thereby to pose questions, for himself and for us, of broadest import.

Bernard Grebanier has said,

"Hamlet has come to be for me the most important work to be understood in the world of literature. It is certainly the richest and most profoundly rewarding creation of the human spirit." In THE HEART OF HAMLET, he takes the reader on an extraordinary tour through Hamlet, through Shakespeare, and through the world of drama. Mr. Grebanier is distressed at what has been done to conceal the real Shakespeare in these three hundred years; and he discloses, not bashfully, what the critics have done to obscure the play, what the Freudians have done to distort it, and what the actors have done to mar it. All this he says with exquisite wit and urbanity; even the footnotes are far from commonplace. In such passages as the mock-scholarly discussion of "Hamlet and the Irish Question", the author peers through the veil of Shakespearean pedantry and delights his readers with his sanity and skill. He will not please everyone. To some he will be provocative; to others, provoking. But to all of us who admire Shakespeare despite what we learned in school, as well as the actors, the critics and the scholars, he will be a delightful discovery.

For Hesketh Pearson, Hamlet is Shakespeare's "most characteristic tragedy, though certainly not his greatest." His A LIFE OF SHAKESPEARE, is an intensely personal personal document, the result of a passionate and intimate involvement with the art of Shakespeare itself. Famous as the author of such widely acclaimed biographies as G.B.S., DIZZY, AND MERRY MONARCH, Mr. Pearson was once himself a Shakespearean actor and a member of Beerbohm Tree's noted Company. Later he became Secretary of The British empire Shakespeare Society. To this book he brings not only a biographer's skill and a talent for lively prose, but also an actor's insight and a scholar's knowledge. That, among scholars and critics, there should be agreement only about Shakespeare's greatness is inevitable. The impact of his work is so personal and so various, the known facts of his life so tantalizingly incomplete, and the magnitude of his genius so great. Many of Mr. Pearson's views are frankly controversial. His interpretation of the biographical element in the sonnets differs sharply from that of writers such as Dover Wilson and J.A. Fort. And from beginning to end, his writing bristles with novel perceptions and closely reasoned opinions.

Pinballs

Continued from Page 1

County police in which they asked for a report on three businesses which had gambling stamps in Niles. Blase said the businesses were in the unincorporated area alongside Niles and that this was within the jurisdiction of the very County police which had asked for a report from Niles.

---Village and park board will meet at 11:00 a.m. Saturday in the Public Works building to reach a common solution on park plans and problems.

---Blase announced that Trustees Szymanski and Wente are in the process of recommending a modernization of Niles license fees and Trustee Ken Scheel will take on the "tremendous task" of modernizing Niles ordinances.

---Jonquil Terrace area will be leveled off (behind 7500 Kirk area) when ground has dried.

---Peeschl's motion approved to study plans for curb and gutters north of Howard Street on Waukegan Road. He said it could be paid from Motor Fuel tax monies.

---Niles police reserve was brought up to its 25 man limit with the appointment of George Heinz, 7135 Milwaukee Avenue and Anthony Szymanski, 8040 Oketo to the list.

---Referred to committee the rezoning of property south of St. Adalbert's cemetery on Milwaukee Avenue and two lots on Albion Street 260 feet from Milwaukee Avenue. The request is for commercial zoning which had been approved by the zoning board.

---Decided that Niles would continue to use Niles Service station for gas and repairs of vehicles. Police cars will receive a 2 cent gas discount from present price. Szymanski had figures which showed savings to village if they installed their own tanks and mechanic would be more costly than present service. He added that when Niles police had about ten cars self-service might be more economical.

---All purchases in excess of $100 would have to be approved by finance chairman Scheel.

---Park district letter for deed for vacated Greenleaf Street between Ottawa and Oriole was dismissed since village only is allowing park board to use the village property.

---Stanley proposals for fallout shelters will be passed at coming meetings. They include no building fee and permits for new-type shelters to be built under garages.

---Crossing guards will receive 2 hour minimum pay per day.

---Skaja Funeral Home asked for special use zoning for Milwaukee-Mulford corner for a funeral home. It was referred to zoning board.

---Meeting was then adjourned until October 10.

Newborn

Mr. & Mrs. J.A. Amann are excited about their new baby boy, Joseph William, who weighed 5 lbs. 14 oz. and was born on Sept. 21. Little Joseph lives at 8513 N. Milwaukee Ave.

Water Problems

Continued from Page 1

which are not in favor of the sewer, and thus the approval of this project will have some resistance.

A second means for alleviating Niles water problems is the dredging of the north branch of the Chicago River, which takes water from Niles sewers. Trustee Bob Wente told THE BUGLE the debris lodged in the river, just at Touhy Avenue alone, is resulting in much obstruction to the flow of water there. Obviously, if the river gets too high, water from Niles sewers will not be able to empty into the river, which results in a back-up of this water, which winds up in resident's basements as well as in their backyards and streets. Wente also mentioned that a dam constructed along the river feeds water into a golf green in Tam O'Shanter Country Club and he believes this is one more hinderance to Niles flood problems. Wente said he had not been able to find whether permission was ever granted for the construction of this dam and he questioned whether the dam itself is on TAM property or on forest preserve property, which is alleged to being used by TAM.

Wente emphasized there is a third solution to this problem which he believes will be a partial aid in alleviating these water conditions. Wente believes an ordinance will have to be passed compelling all Nilesites dis connect their downspouts from going into Niles sewer system. He believes this agrees with village engineer Harold Olsen, who stated that the tremendous amount of water which rolls off existing roofs could best be controlled if the downspouts are disconnected. Olsen contends the water can be fed into Niles sewers in a controlled method, which would lessen the water backing up into people's homes. The street openings into the sewers would have a control which would allow the water into the sewers, only when there is a flow of water leading into the river and into the three Milwaukee Avenue outlets.

All Nilesites are invited to attend the meeting and discuss any problems they may have pertinent to village action.

Leading Citizen Says -

"There's No Better Way Than The Community Chest". Lawrence.

J. R. LAWRENCE

Leading Citizens Say:
"One hundred-and-one percent would be the way I would describe my attitude toward the Des Plaines Community Chest, and if there were any stronger terms I would use them. It is true that 'REAL joy in living is found thru giving' of self-talent-contributions to your community's betterment. There is no better way than Des Plaines Community Chest."
---J. R. Lawrence, president, First National Bank of Des Plaines.

The Chest's One Call Does Best For All

Here's Financial Statement Of Des Plaines Community Chest For Period Sept. 1,1960——Aug. 31, 1961

(Editor's note: Following is the current statement of the Des Plaines Community Chest prepared by S. K. Webster, certified public account, of Des Plaines. Mr. Webster submitted an accountant's report with the statement in which he explained some of the details of the examination. He concluded the report with:

"In my opinion, the accompanying statement of cash receipts and disbursements presents fairly the cash position of the Des Plaines Community Chest, Inc. at Aug. 31, 1961 and the results of cash transactions for the period from Sept. 1, 1960, to Aug. 31, 1961, in conformity with generally accepted accounting principles applied on a consistent basis."
